To whom may concern

Marwah Al-Ahmed is one of the cleverest students I ever teach. She was a student at the College of Computer Science and Information Technology, King Faisal University from few years ago with student number 221512216. She is a very active and organized student, bringing her attention to detail to every required task or project. Her communication skills are excellent, and she has some very innovative ideas. I taught her one course where her grade is A+ .

I highly recommend her for the opportunity that you have available. She is well suited to the challenges it provides. **Marwah** is a talented young woman, and everyone here wishes her all the best with her move to your organization. If you need any additional information,

please contact me.

Best regards,
